DAY 1: LEADING TOGETHER WORKSHOP & KEYNOTE

Leading Together: Strengthening Relational Trust in the Adult School Community

This workshop introduces educators to protocols that build relational trust among faculty, leaders, and students with approaches that provide personal and professional renewal and reflection, SEL, and mindfulness practices. Explore how relational trust supports the teaching and learning environment in schools, colleges, universities, and organizations through shifting school culture. This workshop is based, in part, on Leading Together, an evidence-based professional development program for whole school change of the Center for Courage & Renewal.

Keynote - Breathing Love into Communities

The Holistic Life Foundation will discuss teaching yoga and mindfulness to today's youth. Participants will gain a deeper understanding of the needs of youth in diverse environments, and learn new yoga and mindfulness skills. Through a combination of practice, lecture, and exercises, participants will learn movement, centering techniques, mindfulness practices, and meditations. You also learn youth engagement principles, teaching philosophies, and strategies for working with "problem" students, while exploring methods to make the whole approach practical and, most of all, fun.
